

Download Firefly Planisphere Latitude 42 Degrees North

The Firefly Planisphere is one of the best out there due to the fact that it is specific to the latitude of the user. I live in southern Oregon, having moved here from Arizona, and the sky looks surprisingly different here. Sculptor is a small and faint constellation in the southern sky. It represents a sculptor. It was introduced by Nicolas Louis de Lacaille in the 18th century.????????????????????????????????dj?????????????????????????We only deal with the best used telescopes and parts, and you can feel assured that you're getting a great deal because your scope will work the way you want it to, the first time around.
